Profile

Motivated B.Tech student specializing in Artificial Intelligence and Data Science with strong foundational knowledge in programming, operating systems, and computer networking. Seeking an internship opportunity to apply technical skills and gain real-world experience in software development and AI-based applications.

Education

B.Tech in Artificial Intelligence and Data Science
(2nd Year Completed)

Technical Skills

- **Programming Languages:** C, Java, Python
- **Database:** SQL
- **Core Subjects:** Operating Systems, Computer Networking
- **Tools/Technologies:** Git, GitHub, Flask (basic)

Projects

To-Do Flask App
GitHub Link

- Developed a web-based To-Do application using Flask.
- Implemented CRUD operations for task management.
- Used Python and basic web technologies to build a functional interface.

Farm to Home (Ongoing Project)

- Working on a platform to connect farmers directly with consumers.
- Aims to improve supply chain efficiency and reduce intermediaries.
- Focused on real-world problem solving using technology.

Achievements

- Completed 2 years of B.Tech in AI & Data Science.

Extra-Curricular Activities

- Actively learning new technologies and building projects.
